All the Mockups are here, and the Styleguide to. Take a look.

<https://scene.zeplin.io/project/57bf54c24ff046f70c9b9694>

Current: Theming

All theming issues still to be fixed #454

For convenience and easier overview in one single issue. If there are individual issues, we can link them here. cc [@nextcloud/designers](#)

- ☐ favicons need to be adjusted. Ideally just automatically generate it: square with rounded corners colored with the chosen color, overlayed with the logo. [#840](#)
- ☐ background color of the custom favicons used in apps (Mail, Calendar, Contacts) needs to be adjusted based on the chosen color. This actually needs to be fixed for Nextcloud itself too. [#840](#)
- ☐ ideally adjust the color of the folder icons based on the chosen color. [@juliushaertl](#) said this is possible with CSS but won't work in IE/Edge. [#378](#) & [#840](#)
- ☒ primary action button color used for buttons of installation, file chooser, profile picture picker etc should be adjusted to the chosen color. [#771](#)
- ☒ ~~update page doesn't use the theme values and images~~ [#835](#)
- ☒ notifications app icon in top right (header) is still white for bright header colors [#819](#)

Current: Polishing

Release review polishing #735

- ✓ notification for log-out-in for encryption has capitalization of App
- ✓ fix whitespace around embedded documentation
- ✓ notification icon in top right is white instead of black for bright theme colors [@juliushaertl](#)
[@nickvergessen #819 nextcloud/notifications#9](#)
- ✓ server info: add link to endpoint (for external monitoring solutions) ([nextcloud/serverinfo#16](#))
- ✓ example files:
 - ✓ add user manual
 - ✓ nice video (mp4 of our intro)
 - ✓ add an about.odt and about.txt in documents
- ✓ server survey ([@schiessle](#) will work on this stuff now, see [nextcloud/survey_client#2](#))
 - ✓ ownCloud
 - ✓ confirm button: send usage

Workshop
tomorrow 13:30
